2019 LEGISLATIVE SCORECARD

CALPIRG

| 2019 in review

Dear supporter,

In this past year, CALPIRG worked with the Legislature to pass laws that will protect consumers, preserve the environment, safeguard public health, assure a fair and sustainable economy, and foster a more responsive government. We made important progress on some issues, but fell short on others. My team and I have put this scorecard together so you can know how your legislators voted in the public interest.

One of the victories I am particularly proud of is the passage of AB 824, a law that will prohibit “pay-for-delay” deals between name-brand and generic drug companies, so more of us can get access to the generic version of the medicines we need faster.

We also helped pass SB 72, which makes it possible for Californians to register to vote on Election Day at every polling site in our state, and AB 539, to ban certain predatory lending practices.

But at times, our legislators fell short of some big priorities—including failing to pass the groundbreaking Circular Economy and Plastic Pollution Reduction Act, which would help us move our state beyond the single-use plastic items that we use for just a few minutes, but pollute our planet for decades.

I’m proud of what we have been able to accomplish in 2019, but our legislators can and should do more to address these pressing problems that impact our daily lives. CALPIRG staff do research, public education, organizing, and advocacy to deliver tangible results that benefit all Californians. With the help and support of our members, we’ll keep pushing for change in 2020.

Sincerely,

Emily Rusch
Executive Director
