

# THANK YOU MASSACHUSETTS

FOR PROTECTING OUR KIDS AND COMMUNITIES FROM BIG TOBACCO

On June 1, Massachusetts will fully implement its historic law ending the sale of all flavored tobacco products, including menthol cigarettes. This bold action will stop the tobacco industry from targeting kids, African Americans and other communities with these deadly and addictive products. Menthol cigarettes have hooked generations of African Americans, resulting in high death rates from lung cancer, heart disease, stroke and other smoking-related illnesses. Thank you, Massachusetts, for leading the nation in acting to improve health and save lives for generations to come.
