Re: Swift Action on H.5060, An Act Driving Clean Energy and Offshore Wind

Dear Governor Baker,

We urge you to swiftly sign H.5060, An Act Driving Clean Energy and Offshore Wind into law. This bipartisan bill will support much-needed progress to reduce our state emissions 50% by 2030 as required by law and elaborated on in your administration's Climate and Clean Energy Plan. It will expand clean energy, transportation electrification, and building decarbonization measures while creating jobs.

This bill contains a comprehensive policy that will not only help us achieve our statewide emissions reduction targets but will strengthen our economy and communities. You can deliver needed infrastructure for Massachusetts. Please sign H. 5060, An Act Driving Clean Energy and Offshore Wind into law with haste.

Sincerely,

350 Central Mass
