

Closing Corporate Tax Loopholes

We, the undersigned business owners and executives call on the President and Congress to end tax dodging and support a level playing field for business by enacting strong legislation to stop tax haven abuses. Offshore tax havens reward tax dodgers, and force responsible businesses and households to pick up the tab through cuts to public programs, higher taxes, or more debt.

Everyone needs to pay their fair share to keep America moving forward. Tax dodging means less revenue available to maintain and modernize the infrastructure and services underpinning a strong economy where small businesses can thrive. An estimated \$150 billion or more in tax revenue is lost every year to tax havens. Our economic progress is undermined when companies are rewarded for financial manipulation rather than innovation and productive investment.

Responsible small businesses are hurt when corporations use tax havens to avoid paying taxes. Please stand up for small business owners and ordinary taxpayers by closing offshore tax loopholes.

Sincerely,

Michael Mahler - Owner, Cheap Trx
Alan Clay - Owner, Jordan Allan Barber Co
