

The Honorable Barack Obama
The White House
1600 Pennsylvania Ave. NW
Washington, DC 20500

May 7, 2012

Dear Mr. President:

Attached is a list of 439 elected officials from across the country who have spoken out in favor of quickly finalizing your proposed guidance and conducting a rulemaking to restore critical Clean Water Act protections America's waterways.

These elected officials support your guidance because they understand how critically important clean water is to the health and economic livelihood of people across the country. Their constituents need clean water for drinking water, fishing, swimming, agriculture, recreation, and the wellbeing of their communities—and furthermore depend on the tributaries and wetlands that feed into America's beautiful waterways, from the Chesapeake Bay to the Puget Sound and many in between.

Our waterways are part of what make our nation beautiful, thriving, and prosperous. Stewardship and strong protections for our water resources are integral parts of our citizens' health and economic vitality.

But our waters' health is in crisis. Beginning in 1972, the Clean Water Act protected all of the nation's waters, from small, unnamed streams to our cherished waters like the Great Lakes and the Colorado River. But now, because of two bitterly divided Supreme Court decisions (SWANCC in 2001 and Rapanos in 2006), legal uncertainty puts many of the headwater streams, lakes, tributaries, and wetlands that feed into and filter our cherished waterways at risk of unregulated pollution.

The threat is enormous. According to EPA data, the drinking water sources of 117 million Americans may no longer be protected because the streams that feed these sources are seasonal or intermittent. Similarly, 60% of America's streams and 20 million acres of wetlands may be completely vulnerable to unlimited pollution.

Finalizing your proposed guidance and conducting a rulemaking would reaffirm the broad scope of the Clean Water Act that existed for more than three decades. By restoring the Clean Water Act, you can put our nation back on track to becoming a country where all our waters are safe for swimming, fishing, and drinking.

We hope you will move quickly to ensure America's waterways are protected for years to come.

Sincerely,

Margie Alt
Executive Director
Environment America

Arizona

David Schapira
State Senator (Minority Leader), District 17
Arizona
