

August 30, 2018

Dear Massachusetts' professional sports teams,

We are writing to ask you to commit to a goal of 100 percent renewable energy.

Fossil fuels are threatening the sports we love. Pollution from dirty energy is increasing the rate of asthma and other health problems in children. Unless we act quickly to reduce emissions, climate change will lead to more severe heat waves that could bring summer games to a halt, while reducing opportunities for ice sports in the winter.

The good news is that we have alternatives. By powering our lives with clean energy, we can protect our health and ensure a safe future for our children.

As some of the most important institutions in New England, you can set a positive example for others to follow. Please commit to power your facilities and your operations with 100 percent renewable energy. You can lead the way toward a clean, pollution-free, healthy future for everyone.

Sincerely,

CHAD ENMAN  
MANAGER, BARRACUDA TAVERN, BOSTON

CHRISTINA ANTHONY  
MANAGER, PORTERS BAR & GRILL, BOSTON

GEORGE MICHAELSEN  
PRESIDENT, THE SKI MONSTER, BOSTON
