TIPS & TRICKS: CREATING POLLINATOR FRIENDLY GARDENS IN THE FALL

Location: Sun, Soil, Wind
1. Select sunny spots with less wind & provide water, 2. Create shelter from wind, 3. Look up the right soil type.

Seasons: Seeds vs. Plants
1. Plant seeds in the fall & plants in the spring, 2. Leave natural debris.

Planting
1. Plant a variety of local plants, 2. Select plants for bloom throughout the year, 3. Arrange plants in clusters.

Bee Hotel
1. Drill holes into wood for bees to nest.

Best Plants for Fall

No Pesticides
1. Don’t use pesticides, especially neonicotinoids, 2. Use alternatives, like Integrated Pest Management (IPM).
